

Injectables

WRINKLE REDUCERS

BOTOX® Cosmetic is a minimally invasive treatment that relaxes wrinkle-causing muscles, creating a smoothed and improved appearance. BOTOX® targets wrinkles such as crow's feet, frown lines and forehead creases. A consultation is included with treatment.

DERMAL FILLERS

Fillers restore volume to the skin and minimize the appearance of facial wrinkles. Fillers are perfect for softening deep folds, laugh lines and adding fullness to lips. A consultation is included with treatment.

Hair Removal

LASER HAIR REDUCTION

Packages Available

BroadBand Light (BBL) and ClearScan YAG target the hair follicle. Hair becomes lighter, thinner and minimized over time. Treatments are safe and comfortable and can achieve long-term results. There is no downtime. Multiple treatments are required.

WAXING Prices starting at \$15

We offer a full menu of facial and body waxing services. Low temperature wax allows for the gentle removal of all hair types.

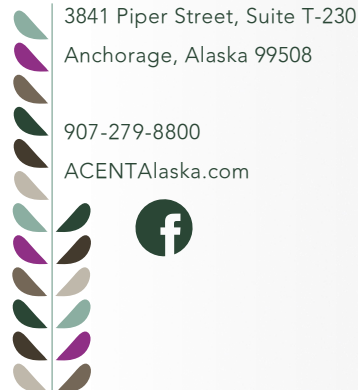

Lash & Brow Tinting

TINTING Prices starting at \$20

Safely darken lashes and brows to define the eye area. Suitable for all skin and hair types.

Located inside Alaska Center for Ear Nose and Throat (ACENT), Faces is Alaska's first and longest-standing medical day spa and laser center. Our team is committed to making your skin and overall appearance the best it can be.

Skincare Treatments

MICRODERMABRASION \$125+

Packages Available

This treatment uses DiamondTome, a diamond-tipped wand to gently exfoliate the skin, improving tone and texture. Expect smoother, healthier skin with no downtime required.

ACNE TREATMENT \$110

This purifying treatment penetrates the skin, ridding it of impurities. Combined with steam, blackheads are easily removed and skin is left clean and healthy.

CHEMICAL PEEL \$150+

Excellent for treating a number of skin conditions including acne, sun damage, redness and wrinkles.

PHOTO REJUVENATION

Packages Available

Using the power of pulsed light, BroadBand Light (BBL) is the perfect choice for the treatment of fine lines, hyperpigmentation and small facial veins. Your skin will be smoother and more vibrant. No downtime is needed. Multiple treatments are required.

ESSENTIAL FACIAL \$115

50 minutes

This relaxing treatment helps to promote healthy and youthful skin. Gentle cleansing and exfoliation will slough away dry skin while a moisturizing mask will help to plump fine lines and wrinkles. Includes massage and extractions.

DELUXE FACIAL \$125

65 minutes

This customizable facial targets all skin types and concerns. Relax with a gentle cleansing and exfoliation of the face and décolletage. Personalized gels are penetrated deep into the skin to hydrate and cleanse. Impurities are easily removed and skin is hydrated. Includes massage and extractions.

SIGNATURE FACIAL \$175

110 minutes

This comprehensive treatment begins with a digital skin analysis with the revolutionary VISIA® Complexion Analysis machine. This personalized analysis helps identify UV damage, wrinkling and vascular irregularities. A relaxing, custom treatment will restore moisture and firmness and revitalize all skin types. Includes massage and extractions.

MICRODERM & FACIAL COMBO \$190

80 minutes

We combine the gentle exfoliation of the DiamondTome with the relaxing benefits of the Essential Facial. The skin is cleansed and then gently exfoliated with the diamond-tipped wand, creating a brighter and clearer complexion and promoting the growth of healthy new skin cells. A soothing massage and customizable mask creates a blissful experience.

Laser Center

SCITON PROFRACTIONAL*

Fractional lasers stimulate collagen production. This treatment will improve signs of aging, sun damage and scarring. Use in combination with the MicroLaserPeel to enhance results.

MICROLASERPEEL*

Rejuvenate the skin and improve fine lines, wrinkles and brown spots. MicroLaserPeel exfoliates deeper than microdermabrasion, yet it is less invasive than full skin resurfacing and has minimal downtime. Multiple treatments are required.

FACIAL VEIN TREATMENT*

Vari-Lite is a non-invasive laser treatment to remove facial vascularities and pigmented skin lesions. It is ideal for patients with rosacea. Two treatments are recommended.

LASER SKIN PEEL*

This treatment is used for deep skin resurfacing. Texture, skin tone and wrinkles will improve dramatically. It is generally performed as a single treatment.
